

## TRIBUNOL Polardiol G 11

Polardiol G 11 is a practice-proven, blue/green coloured coolant concentrate based on corrosion inhibited monoethylene glycols.

### DESCRIPTION

Polardiol G 11 is used in water-cooled engines, contains no nitrite, amine or phosphate and provides reliable protection against rust formation, freezing or overheating at summer temperatures. This product is not suitable for protecting drinking water pipes against frost or corrosion!

### BENEFITS

- Corrosion protection, also for non-ferrous metals
- Frost protection
- favourable evaporation properties
- good miscibility
- Elastomer Compatibility
- stable in hard water
- good price

**Recommended and tested in units for which the following specifications and filling instructions are required**

British Standard BS 6580:1992  
AFNOR R-15601

MB 325.0, MB 325.2  
MAN 324 NF  
VW TL 774C

### ATTENTION:

**This product is not suitable for protecting drinking water pipes against frost or corrosion!**

### Corrosion and frost protection

**Polardiol G11 guarantees year-round corrosion and frost protection. It is recommended to use at least 33 volume % Polardiol G11 and 67 % water to achieve reliable protection down to -20°C. Mixtures with more than 70 % by volume of G11 are not recommended.**

**The maximum antifreeze protection down to -69°C is achieved by adding 68 volume % Polardiol G11.**
